

LASD - Department Operations Center

COVID-19

New COVID-19 Related Statistical Codes

Based on the Department's need to statistically track responses related to the COVID-19 event, the following statistical codes shall be used as a secondary statistical code to properly document and track incidents and reports related to COVID-19:

806 – Known / Confirmed COVID-19 Related

807 – Unknown / Possible COVID-19 Related

808 – Directed Patrol / Enforcement / Compliance Check Related to COVID-19

806 – Known / Confirmed COVID-19 Related

This statistical code shall be used for calls where a **known or confirmed** case of COVID-19 was an aspect of an event involving Department Personnel. This includes any incident where department personnel have been exposed to someone who self-reports as positive for COVID-19 or has a medical diagnosis as being infected with the COVID-19 virus. Examples may include but are not limited to:

- Medical aid call where the victim has been medically diagnosed with COVID-19 and department personnel come in direct contact, indirect contact or are present within an enclosed space/same room with the victim for a period longer than two minutes.

807 – Unknown / Possible COVID-19 Related

This statistical code shall be used for calls where based on the totality of the circumstances, a **possible** exposure to COVID-19 has occurred or may have occurred. This includes any incident where department personnel have been exposed to someone who self-reports as possibly being infected (undiagnosed) or exhibits the signs and symptoms of a person infected with the COVID-19 Virus. Examples may include but are not limited to:

- A suspect is arrested who exhibits the signs and/or symptoms of a person infected with the COVID-19 virus (fever, cough, sore throat).

COVID-19

New COVID-19 Related Statistical Codes

808 – Directed Patrol / Enforcement / Compliance Check Related to COVID-19

This statistical code shall be used for calls related to the COVID-19, but **do not necessarily involve an actual case of the virus**. Examples may include but are not limited to:

- Directed Patrol/High Visibility Patrol
- Calls related to assisting in enforcing Health Officer's Orders at the direction of the Department of Public Health
- Enforcement functions / Criminal investigations related to protests, price gouging, fraud etc.

Department personnel may use any combination of the COVID-19 statistical codes for MDC and CAD clearances. In addition, any combination of the COVID-19 statistical codes can also be used where appropriate, for all department forms.

In all cases, a short narrative shall be included in the call clearance or report narrative which justifies the use of the COVID-19 statistical code(s).

A Department Field Operations Directive regarding these statistical codes is currently in the approval process.

If you have any questions or require additional information, the DOC is available 24 hours [REDACTED].
