

LASD - Department Operations Center

COVID-19

Patrol Station Operations

The Sheriff is directing that all Sheriff's patrol stations and front line commands will remain open and operational. It is imperative to maintain our primary mission of public safety, responding to calls for service, maintaining order and assisting the public as needed. This includes remaining open for business 24 hours a day.

Remember to practice good sanitary habits in line with the CDC/DPH guidelines before and after your shift and when engaging with the other persons.

The Department Operations Center (DOC) will continue to provide specific directives related to COVID-19, including more specific operational instructions as needed.
