Image size too big, or Picture distorted?

Are you getting a message that your profile image is too big or does it look funny after you upload it? Here is how to fix it.

1. Visit this website: http://www.resizeyourimage.com/

2. Click on "Choose File" in order to pick your profile picture to upload. Our example will be a Koala picture with a dimension of 1920 x 1200.

3. Set width to 240 and Height to 300 by clicking on the respective buttons. This will set the box to the correct size.

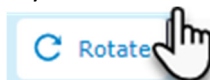

4. Zoom in or Zoom out as necessary.

5. Move the box around the picture to frame your profile picture.

6. If you need to correct the orientation of your photo, use the "Rotate" button.

7. Once you are satisfied with your profile picture. Click on "Resize".

8. Click on "Save" to save the resized image to your computer. Upload this file to your profile.
