Good evening sir:

As part of the Office of Inspector General's report on the Department's administrative investigation and force review processes, we are reporting the time frames within which IAB Force/Shooting Response Team reviews are completed and the time the EFRC panel is afforded to evaluate the cases.

I have attached to this email an encrypted file containing information about 187 cases which were the subject of EFRC reviews at which OIG staff have been present since 2016. Almost all of the information was obtained from the EFRC agendas and EFRC summaries, although the dates of two shootings were verified from the Homicide Memos.

I have also attached the file as an Excel file so that you may sort or manipulate it in any way, should you find it more convenient to do so.

The highlighted lines are duplicates, meaning the EFRC had been previously scheduled or held but the final EFRC took place on the highlighted date. The original date is not highlighted. The only information which was not provided by the Department is the date the EFRC cases were submitted to the OIG. These cases did not have transmittal letters, and it was represented to us that these cases were being sent to the OIG at the same time they were being submitted to the EFRC panel.

If there is any information which is incorrect in this list, please let me know (although the Unit, the SH/FO/URN numbers and the IAB Presenter & Homicide Lt. are not relevant to our report and have been included in the list only for your information).

This documents are encrypted and password protected. The .pdf file is protected by two passwords: the second password is for printing the document. These passwords are the same as those for the documents I sent you yesterday. Please call if you have any questions.

Thank you.

Dan

Good Morning Sgt. Chau,

All EFRC cases are uploaded to the OIG share folder a week before the EFRC scheduled date. Once uploaded, OIG has access to the cases.

Should you have further question please contact me.

Thank you,

Cesar O. Rodriguez, OAI
