(January 2024 through March 2024)

SHERIFF ROBERT G. LUNA

Los Angeles County

SHERIFF'S DEPARTMENT

CONDITIONS OF CONFINEMENT

2024 QUARTER ONE REPORT

Efforts to Reduce the Jail Population

The Los Angeles Sheriff's Department (LASD) continues to utilize various methods to manage the inmate population, including but not limited to, leaving the misdemeanor bail admitted at 50K, having been raised from 25K; applying accelerated releases for all inmates by 30 days using CA Penal Code 4024.1 PC; keeping the percentage release at 10% of their court ordered sentences for non-violent charges; and releasing short sentences if they are less than 240 days and non-violent charges.

On October 1, 2023, Pre-Arrest Release Protocols (PARP) was implemented and assisted in diverting additional incarcerated individuals who would have otherwise entered the county jail system. The average daily inmates booked into the LA County jails (IRC and CRDF) between October 1, 2023 – March 31, 2024 was 150, a 9% decrease, compared to the same time period last year.

LASD continues to work with the California Department of Corrections and Rehabilitation (CDCR) to coordinate the transfer of incarcerated individuals sentenced to state prison. The number of incarcerated individuals awaiting transfer to CDCR (SP – SP4) dropped significantly from 1,771 in the beginning of January 2023, ending the year with an average of 700 during the fourth quarter. The first quarter of 2024 maintained the average with 711 SP-SP4 incarcerated individuals awaiting transfer, representing approximately 6% of the total incarcerated population.

The number of incarcerated individuals sentenced to state prison has stabilized as LASD has sustained the number of newly sentenced state prisoners, and there is no backlog. As of the 29th of March, there were 215 SP4 incarcerated individuals (all paperwork is processed) pending transfer to CDCR.

LASD continues to work with State Hospitals to reduce the incarcerated population. At the beginning of January 2023, there were 593 incarcerated individuals awaiting transfer to state hospitals. During the fourth quarter of 2023, the population average of incarcerated individuals with medical needs was reduced to 192 incarcerated individuals. The trend continued through the first quarter in 2024 with the average reduced to 132 incarcerated individuals, approximately 1% of the total incarcerated population.

LASD continues to collaborate with the Office of Diversion and Reentry (ODR) on diverting qualified incarcerated individuals to ODR releases, who otherwise would have been transferred to state hospitals.
